

PHOSRITE

A BALANCED PHOSPHORUS AND PROTEIN BLOCK FOR CATTLE AND SHEEP

A 45% protein and 5% phosphorus block for cattle grazing high volumes of green or maturing feed on phosphorus deficient country

APPLICATION:

Suitable for:

1. Breeding cattle
2. Replacement heifers
3. Growing cattle on phosphorus deficient soils
4. Sheep

FEATURES & BENEFITS:

1. High phosphorus and mineral content to build or replenish reserves in breeder cattle or replacement heifers.
2. Suitable for use on both dry and green pasture.
3. Weather resistant block – can be put out before the wet while country is still accessible.
4. Hard consistency to assist in regulating intake.

FEEDING DIRECTIONS:

Cattle:

Usual intake 75 – 150 g/head/day

Block Size	Cattle (per block)	Days (per block)	If consumption consistently exceeds 200 grams/head/day, cattle can be changed over to Phosrite Territory Tuff block
40kg	20	14 – 21	
100kg	50	14 – 21	

Sheep:

Usual intake 20 – 60 g/head/day

Block Size	Sheep (per block)	Days (per block)	If consumption consistently exceeds 80 grams/head/day, sheep can be changed over to LNT Phosrite Territory Tuff block
40kg	30	28 – 49	
100kg	80	21 – 49	

1. Ensure a plentiful supply of either green or dry pasture is available when feeding this product.
2. Place blocks on high, well-drained ground.
3. Locate blocks a minimum of 30 metres from watering points. Once stock are consuming the blocks, move them out further from watering points. This will aid in avoiding over consumption and encourage stock to graze out, utilising available paddock feed.

WARNINGS:

WARNING: This product is only suitable as a supplement for ruminants once the rumen is fully functioning. This product is not designed as a supplement for a pre-ruminant animal.

WARNING: This product contains urea, which can be toxic to livestock causing injury, death and consequent loss and damage to you and/or your business. Livestock management and environmental conditions (e.g. climate, farm management, pastures, soil types, water etc.) vary considerably between locations. These variations will affect individual supplementary requirements. For more information phone 1300 666 657.

Urea based products should only be fed as part of a complete supplementation program, as urea can cause death

PHOSRITE

A BALANCED PHOSPHORUS AND PROTEIN BLOCK
FOR CATTLE AND SHEEP

to stock which have not been gradually exposed to it, or if intakes are excessive. Excessive intakes may occur where prior supplementation has been inadequate.

Producers should note the following precautionary recommendations:

1. Consumption should not exceed the level indicated on this label.
2. Should consumption exceed the level stated on this label please call 1300 666 657.
3. Always provide adequate clean drinking water.
4. Urea should not be fed to starving stock, malnourished and/or thirsty stock.
5. Risk of urea toxicity increases the closer blocks are placed to water.
6. Do not feed this product where roughage is inadequate.

WARNING: This feed has been formulated specifically for animals as described on the package, or the label attached to the package, and must not be used for other species of animals. This product is unsuitable for human consumption. The manufacturer accepts no responsibility if this feed is used in quantities, conditions or in any way other than in accordance with the manufacturers recommendations. The manufacturer's recommendations for the use of this product may be obtained by contacting our Customer Service Centre or the Head Office of the company.

ANALYSIS (AS-FED)			
Total Crude Protein and Equivalent Crude Protein (minimum)	45%	Fluorine (maximum)	0.1%
Crude Protein (minimum)	2.0%	Sulphur (minimum)	1.0%
Equivalent Crude Protein (minimum)	43%	Magnesium (minimum)	5.0%
Urea	15%	Copper (added)	300 mg/kg
Crude Fat (minimum)	0.1%	Cobalt (added)	30 mg/kg
Crude Fibre (maximum)	10%	Iodine (added)	30 mg/kg
Salt (maximum added)	5.0%	Zinc (added)	500 mg/kg
Calcium (minimum)	6.0%	Selenium (added)	2.5 mg/kg
Phosphorus (minimum)	5.0%
